

Hanrahan Youth Services
Residential Treatment Services for Adolescents

February 20, 2018

To Whom It May Concern,

Hanrahan Youth Services provide children and adolescents with long-term commitment, a therapeutic environment and the supportive services necessary to foster growth and to enhance their self-esteem. The Hanrahan Youth Services philosophy of care incorporates a strength based program. We provide a safe, predictable and nurturing environment in our residential programs where clients can develop their potential in all aspects of their lives. Hanrahan Youth Services provides clients with a wide variety of therapeutic services, extensive programming and aftercare support to ensure the full development of the individual.

Children and Youth deserve the utmost profession and care when being cared for. We believe that legislation would benefit the children and youth who need care, by legislating regulation for the profession for the child and youth workers who are working with vulnerable populations in the province. The Ontario Association of Child and Youth Care is viewed with high regard and Hanrahan Youth Services is thankful for the work ensuring child and youth care becomes a legislated practice, and supports it greatly.

Regards,

Brian Barron
Director of Hanrahan Youth Services
