

Sarnia-Lambton  
**REBOUND**

November 5, 2018

To whom it may concern,

Sarnia- Lambton Rebound is committed to supporting children and youth in reaching their full potential. We provide a therapeutic environment and the supportive services necessary to foster growth and to enhance their self-esteem and life skills. Rebound's mission is to be "a caring partner in the successful development of youth" incorporated with evidence informed prevention and early intervention programs. We provide a safe environment where children and youth can develop their potential in many aspects of their lives.

We believe that legislation would benefit the children and youth who need care and support. We support the legislation to regulate the profession of child and youth workers who, on a daily basis, are working with the province's most vulnerable populations. Sarnia-Lambton Rebound is thankful for the work of the Ontario Association of Child and Youth Care and their advocacy in ensuring child and youth care becomes a legislated practice.

Regards,

Carrie McEachran  
Executive Director of Sarnia-Lambton Rebound
