On behalf of Family Relationships Support Services, I am proud to extend our support to the OACYC in its effort to ensure that child and youth care becomes a legislated and regulated profession. Child and youth care workers are part of a dedicated and caring field of individuals who through their experience, education, and passion work hard to help others transition through life.

As a parent of three children who have each had Child and Youth Workers in their schools, and being a child and youth worker myself; I have seen the benefits first hand of child and youth work, and the work that is done to improve and balance and safety of the community. If you have any questions please contact me. (Manager of Support Services) at: [frss-workers@hotmail.com](mailto:frss-workers@hotmail.com)

Thank You Kindly

Michael LeFave,  
Manager of Support Services
